AMENDMENT

Sir:

In response to the Patent Office action of December 13, 2006, please amend the above-identified patent application as follows:

IN THE SPECIFICATION

Page 5, line 10, change "30" to --- 31 ---.

Page 6, line 12, change "42" to --- 43 ---.

REMARKS

The specification and drawings have been objected to on grounds that reference character "42" has been used to designate both a pouring opening and a pivot arm. Accordingly, the specification and drawing have been amended to overcome this deficiency and, as now presented, the case is believed to be in proper order.

All of the claims have been allowed and, as noted above, the case is now believed to be in proper order. Therefore, the Examiner is requested to pass the case to issue.

Respectfully Submitted,

Robert M. Sperry
